

Alice, 1

Maryland | Phenylketonuria (PKU) | Annual costs: \$1800

Medical nutrition coverage has significantly reduced the cost and strain on our family's income for our daughter's food. We spend hours making her special recipes a week and approximately \$150 extra a month in order to buy specific gluten free and vegan products for groceries. I cannot begin to express how much medical formula coverage means to my family.

Alice depends on medical nutrition to stay healthy. Alice and thousands of others across the country are depending on you to co-sponsor the Medical Nutrition Equity Act. Please contact the offices of Sen. Casey, Rep. McGovern or Rep. Herrera Beutler.
