

## Krew, Age 3

### Phenylketonuria (PKU) | Utah

When Krew turns 6 and is no longer covered by the state metabolic program, we will have to seriously consider moving to a state with better coverage. It would break our hearts to take him and our other children away from home. Away from family and close friends. But unfortunately, even with a great paying job, we will not be able to afford all things necessary for living with PKU.

---

Krew depends on medical nutrition to stay healthy. Krew and thousands of others across the country are depending on you to co-sponsor the Medical Nutrition Equity Act. Please contact the offices of Sen. Casey, Rep. McGovern or Rep. Herrera Beutler.
