

Lucas, age 18 months

FPIES | New Jersey

While we are fortunate that wic and insurance cover Lucas's formula because of his medical necessity as well as my persistence with insurance and Drs filing out the right things, etc, many families have a lot of trouble finding help with formula that is essential for their littles' nutrition which puts additional stress on their already stressful situation. Lucas relies on neocate Jr to grow and thrive, and we want to fight for others in Lucas's situation to get their formula covered!

Lucas depends on medical nutrition to stay healthy. Lucas and thousands of others across the country are depending on you to co-sponsor the Medical Nutrition Equity Act. Please contact the offices of Sen. Casey, Rep. McGovern or Rep. Herrera Beutler.
