

Reynaldo

Florida | FPIES | Annual costs: \$3864

My son's food allergies were so severe, he was reacting to the food I was eating through breastfeeding. He had blood in his stool for several months and stopped gaining weight until he was diagnosed and prescribed an elemental medical infant formula that our insurance refuses to cover even partially. Our insurance is the best plan that the employer provides, yet it won't cover medical formula provided orally even with a prescription from a specialist and letter of medical necessity.

Reynaldo depends on medical nutrition to stay healthy. Reynaldo and thousands of others across the country are depending on you to co-sponsor the Medical Nutrition Equity Act. Please contact the offices of Sen. Casey, Rep. McGovern or Rep. Herrera Beutler.
