

Saif, Age 5

Florida | Phenylketonuria (PKU) | Annual costs: \$6000

Hi, I am only 5 years old now and my parents struggle to provide the right food for me for my special diet. Coverage would mean now and when I get older I wouldn't have to pay for my food that keeps me healthy and for my formula and ALL THE OTHER PKU PEOPLE also to have coverage to stay healthy!!!! Our insurance has to have us call every 6 months to prove Saif is truly sick and 3 different out of network companies: his low protein foods, his formula, and his lab (to check amino acid levels) have to be changed to IN NETWORK.....EVERY 6 MONTHS JUST SO WE DON'T HAVE TO PAY FULL AMOUNT.

Saif depends on medical nutrition to stay healthy. Saif and thousands of others across the country are depending on you to co-sponsor the Medical Nutrition Equity Act. Please contact the offices of Sen. Casey, Rep. McGovern or Rep. Herrera Beutler.
